FAQ

- Do I need any code changes to use the module: No we added options to modify how the PDF is placed
- Do I need perfex Crm to use it?
Yes. **This is not a standalone module for QR Codes, the module requires Perfex CRM application installed which can be purchased [here](#).** Installation
- How do I get support?
Kindly contact us on Codecanyon or use our support form at <https://www.boxvibe.com/support>

TROUBLESHOOTING

- To check what version you are using visit [click here.](#)
- If any **css/js errors** outputted on developers console or tables are not loading **make sure you cleared your browser cache.**
- **If you are using your own themes/view files** e.q my_home.php **make sure to re-check them** in case you are getting blank pages because may happen some function changes and an error occur in your view file. **Try switching to the original files** to check if everything will work.
- Getting 500 error - open [support ticket](#) and we will be happy to assist you.
